WHY TAKE OUT A SINGLE RISK CONTRACT?

Unlock Focus is a specific credit insurance product that offers commercial and political risk coverage for a single transaction of your choice. Therefore, you do not need to take out a global credit insurance policy.

The way the policy works:

- ◆ You decide which customer or single transaction you want to cover.
- ◆ Together we identify your key needs.
- ◆ We provide a customized solution, based on cover that is either cancellable or non-cancellable for 12 months.
- ◆ In case of non-payment or non-execution of the contract, we will indemnify your losses (non-recovered debts).
- ◆ You easily manage and follow your policy with our dedicated digital platform.

Unlock your potential!
Well protected, you can concentrate on your business.
